### HEALTH SCIENCES

Have you ever thought you might like to be a nurse or a doctor when you grow up? Here you will learn about Universal Precautions, proper hand washing, and gloving techniques. You will learn how to collect data from your patient and even measure vital signs like temperature, blood pressure, pulse and respirations. What better way to learn more about the Health Sciences field?

### ART

Did you know that there are many careers out there for you as an artist? Learn more about the different jobs that you can pursue, while having an opportunity to create your own artistic masterpieces. Graphic art, design, education, fashion and architecture are just a few of the fields you will pursue while working with different mediums...including clay!

### SCIENCE

Are you interested in learning more about fields like biology, chemistry and physics? Come to this class to participate in many hands on science experiments that will help you to explore different career fields in the world of science!

### COMPUTER ROBOTICS

By using virtual worlds and Lego Wedo robotics software, you will become familiar with the types of programs and experiences that people in the computer field get to do every day! You will create and control objects in a "physics sandbox" designed to simulate real-world forces. Further, you will explore the fascinating world of robotics by building and manipulating Lego robots.

### JOURNALISM

Are you interested in writing about sports? News? Learning about places around the world? You might be interested in becoming a Sports Journalist, Investigative Journalist or Freelance Writer. In this class you will have an opportunity to learn about these fields and participate in the same kinds of activities that journalists do!

### CRIMINAL JUSTICE

Want to know what the field of Criminal Justice is all about? Learn what it's like to be a police officer, a probation officer, a prosecutor or even a judge! You will learn what all the different people who enforce our laws do, how they interact with the public, and see what happens when cases are taken to court. You will see what takes place at an arrest, how people prepare trials, and what happens in an actual court case.

## REGISTRATION INFORMATION

Cost for the program is \$100. You may choose to attend only one class, but the cost is the same. Please mark your selections below, one for each session. If both classes you want to enroll in take place during the same session, you may enroll in the session for the other age group, but be aware that content will be appropriate for the given group.

Classes will be filled on a first come, first served basis.
